Your bid of 2♥ promises 5+ spades, 4+ hearts and 12-18 points.

You must show your clubs. A bid of 2♣ would show 12-18 HCP which partner might pass. Your jump bid of 3♣ shows 19+ points, at least 5 diamonds and at least 4 clubs. Partner must bid again.

Partner might have just 6 points and no support for either of your suits and a hand unsuitable for No Trumps. A non-jump rebid in a suit that is lower ranking than your first suit has a wide point range - 12-18 points

A rebid of 2NT would show 10-12 points. A preference bid does not necessarily show 3 card support. A 5-2 trump suit fit will usually play better than a 4-3 trump suit fit because declarer is less likely to lose control of trumps. On a good day partner will have 6 spades.

He has not rebid 1♠ or supported your hearts so has denied 4 hearts and 4 spades. He has 12-18 HCP (with 19 HCP he would have jumped to 3♣). It is very unlikely that the partnership has enough combined points for game, so you want to settle for a safe part score. You have an 8+ card club fit so you pass. This is called a preference pass , preferring partner's clubs.
